Recommended Best Practices for Students, Staff, and Visitors

- Face masks are recommended, but not required, to be worn by all individuals while indoors.
- Social distancing measures are recommended whenever possible.
- Regular handwashing and use of hand sanitizer are recommended.

Response to Illness of Students

- Parents should monitor their child for a temperature greater than 100.0, cough, congestion, shortness of breath, gastrointestinal symptoms, loss of taste or smell, sore throat, headache, or body aches each day. If any of these symptoms are present, please refer to our COVID-19 Return to School Protocol.
- Students sent home for illness will be required to follow the COVID-19 Return to School Protocol.
- If BTCS is notified of a positive case of COVID-19 among a student or staff member, BTCS will notify the Sullivan County Regional Health Department (SCRHD). Any further action in response to the positive test will be taken by the SCRHD.
- School nurses will be available for health support during BTCS summer programming.

Cleaning Procedures

- Frequently touched surfaces will undergo cleaning with either an EPA-approved disinfectant or dilute bleach solution often and no less than daily. Staff will perform additional disinfecting of more frequently touched surfaces and equipment throughout the day as possible.

Athletic Activities

- The above protocols apply to all summer programs, including sports camps. Athletic activities will also follow all applicable TSSAA, SCRHD, and First Tennessee Region Superintendent Study Council regulations.
